- 16.1. These Terms of Sale shall be governed by, construed under and enforced in accordance with the laws of Singapore, without regard to any conflict of law provisions. Any action in connection with, relating to or arising from this agreement shall be finally resolved by arbitration in Singapore in accordance with the Arbitration Rules of the Singapore International Arbitration Centre for the time being in force ("**SIAC Rules**"). The tribunal shall consist of one arbitrator to be appointed in accordance with the SIAC Rules. All arbitration proceedings shall be in the English language. The decision of the arbitrator shall be final and binding.
- 16.2. If the decision of the arbitrator can, under Applicable laws, be appealed to the courts, or if either party seeks to set aside the arbitral award under Applicable laws, you agree to be subject to the jurisdiction of the courts in Singapore, to the extent relevant, and hereby waive any objection to such jurisdiction for the purpose of any such appeal or recourse to the courts.

17. TERMINATION OF TOKEN SALE

- 17.1. The Company may be entitled to terminate the Token Sale at any time (including before the end of the Sale Period) for any reason by making an announcement on the Website and in particular (without prejudice to the generality of this clause), if:
- (a) The Company is required by Applicable laws to terminate the Token Sale for any reason;
 - (b) the Token Sale is considered illegal or irregular under the applicable laws of any jurisdiction, is prohibited, banned or forced to cease by any government in any jurisdiction; and
 - (c) the Company or the Platform(s) ceases to operate prior to the end of the Token Sale, including as a result of any force majeure event and cannot resume.
- 17.2. Upon termination of the Token Sale and with respect to payments which have been made to purchase OGT, the Company shall, within one (1) month from the date of termination, and provided always that you had provided your Personal Information under clause 6, refund the proceeds of the Token Sale (net of any and all costs incurred by the Company to prepare for, undertake and conduct the Token Sale) to you, provided that if the Company would have previously converted proceeds in part or whole into any fiat currency, the Company shall only be obliged to use the resulting amount in fiat currency to purchase the cryptocurrency at the prevailing market price and then refund the so acquired cryptocurrency (i.e. ETH) to the Token Holders on a pro rata basis. Other than as set forth in this clause 17.2, the Company shall be under no obligation to any holder of the OGT for the termination of the Token Sale. For the avoidance of doubt, a refund under this clause 17.2 is made pursuant to the termination of the Token Sale and shall not be construed as a buy-back of the OGT for any other reason.

18. DISRUPTION EVENT

- 18.1. In the event of a Disruption Event, the Company has the right to suspend the sale of OGT during the Sale Period. If the Company suspends the sale of OGT during the Sale Period (the “**Suspension Period**”) pursuant to this clause 18, the Company will determine in its sole discretion whether to:
- (a) end the Sale Period on the scheduled end date; or
 - (b) extend the Sale Period for a period of 7 (Seven) days.
- 18.2. A “**Disruption Event**” shall mean (i) any event or occurrence that causes a disruption in the functionality of the Ethereum blockchain, and such disruption has a material adverse effect on the processing time for blockchain transactions, or (ii) if there is any delay in contracts, production, marketing, other events beyond the control of the Company.

19. TAXES

- 19.1. You shall declare, bear and pay all such taxes, duties, imposts, levies, tariffs and surcharges that might be imposed by the laws and regulations of any jurisdiction as a result of or in connection with the receipt, holding, use, purchase, appreciation, trading or divestment of the OGT, whether purchased during the Token Sale or otherwise acquired.

- 19.2. You shall be solely liable for all such penalties, claims, fines, liabilities or otherwise arising from your non-payment, underpayment, undue payment or belated payment of any applicable tax. The Company gives no advice and makes no representation as to the tax implications of your participation in the Token Sale.

20. MISCELLANEOUS

- 20.1. *Severability*: If any term, clause or provision of these Terms of Sale is held unlawful, void or unenforceable, then that term, clause or provision will be severable from these Terms of Sale and will not affect the validity or enforceability of any remaining part of that term, clause or provision, or any other term, clause or provision of these Terms of Sale.
- 20.2. *Entire Agreement*: These Terms of Sale, the Service Terms and Policies and the Communications referred to in clauses 2.3 and 9.3, and the terms published on the order page or in the portal for the Token Sale, constitute the entire agreement between you and the Company relating to your purchase of the OGT from the Company, and such entire agreement supersedes all prior agreements, understandings and/or arrangements in relation to the Token Sale and the OGT.
- 20.3. *Assignment*: Except as otherwise provided in herein, these Terms of Sale are intended solely for the benefit of you and the Company and are not intended to confer third-party beneficiary rights upon any other person or entity. The Company may assign its rights and obligations under these Terms of Sale.
- 20.4. *Waiver*: The failure of the Company to exercise or enforce any right or enforce strict compliance or provision of these Terms of Sale will not operate as a waiver of such right or provision. The Company will not be liable for any delay or failure to perform any obligation under these Terms of Sale where the delay or failure results from any cause beyond the Company's reasonable control.
- 20.5. *No Partnership/ Joint Venture*: Purchasing the OGT from the Company does not create any form of partnership, joint venture or any other similar relationship between you and the Company.
- 20.6. *Title and Subtitles*: The titles and subtitles used in these Terms of Sale are used for convenient reference only and are not to be considered in construing or interpreting these Terms of Sale.
- 20.7. *Right to Amend*: The Company may revise these Terms of Sale from time to time in any circumstances, including but not limited to:
- (a) changes in the type of cryptocurrency used for the Token Sale;
 - (b) changes in the value and features of OGT;
 - (c) changes in the governing law and jurisdiction referred to in clause 16; and
 - (d) any other changes that may be required from time to time following changes to business practices, industry developments, or new regulatory requirements.

- 20.8. *Third Party Websites or Platforms:* The Company may provide certain hyperlinks to third party websites, and the inclusion of any hyperlinks or any advertisement of any third party on the Platform does not imply endorsement by the Company of their websites, products or business practices. If you access and use any third-party websites, products, services, platforms and/or business, you do so solely at your own risk for which the Company will bear no liability.
- 20.9. *Intellectual Property Rights:* The Terms of Sale shall not entitle you to any intellectual property rights, including the rights in relation to the use, for any purpose, of any information, image, user interface, logos, trademarks, trade names, Internet domain names or copyright in connection with the Website, the Platform, or the Token Sale.

- 20.11. *Third Party Rights:* Unless expressly provided to the contrary in these Terms of Sale, a third party has no right under the Contracts (Rights of Third Parties) Act, Chapter 53B of Singapore to enforce or to enjoy the benefit of any term of these Terms of Sale. ANNEXURE 1

RISKS AND ASSUMPTIONS

1. **Risk of Software Weakness:** You understand that OGT and the Platforms are still in early development stages and unproven. You understand that there is no warranty that the process for creating the Platforms will be error-free and that there is an inherent risk that the artificial intelligent technology to be implemented could contain weaknesses, vulnerabilities, bugs, etc., that could cause complete loss of OGT or the data on the Platforms.
2. **Risk of Losing Access to OGT Due to Loss of Private Key(s):** A private key, or a combination of private keys, is necessary to control and dispose of OGT stored in your digital wallet or vault. Accordingly, loss of requisite private key(s) associated with your digital wallet or vault storing OGT will result in loss of such OGT. Moreover, any third party that gains access to such private key(s), including by gaining access to login credentials of a hosted wallet service you use, may be able to misappropriate your OGT.
3. **Risks Associated with the Ethereum Blockchain:** Because OGT are based on the Ethereum blockchain, any malfunction, breakdown or abandonment of the Ethereum blockchain or other technological difficulties may have a material adverse effect on or prevent or limit access to or use of OGT. Moreover, advances in cryptography, or technical advances such as development of the quantum computing, could present risks to the OGT by rendering ineffective the cryptographic consensus mechanism that underpins the Ethereum blockchain. Transactions involving tokens on the blockchain may be irreversible, and, accordingly, losses due to fraudulent or accidental transactions may not be recoverable.
4. **Risk of Hacking and Security Weaknesses:** Hackers or other malicious groups or organisations may attempt to interfere with the Platforms and OGT in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing.
5. **Risks Associated with Markets for OGT:** The Company does not intend to facilitate primary or secondary trading of OGT. If third party exchanges do permit the trading of OGT on their own initiative, such exchanges may be relatively new and subject to little or no regulatory oversight, making them more susceptible to fraud or manipulation. OGT are not legal tender and are not backed by any government (as far as the Company is aware, at this time), and to the extent that third parties do ascribe an external exchange value to OGT, such value may be extremely volatile and diminish to zero.
6. **Risk of Uninsured Losses:** Unlike bank accounts or accounts at some other financial institutions, OGT are uninsured unless you specifically obtain private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer or private insurance arranged by the Company, to offer recourse to you.

7. **Risks Associated with Uncertain Regulations and Enforcement Actions:** The regulatory status of digital tokens and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory agencies may apply existing regulation with respect to such technology and its applications, including the Platforms or part thereof, and OGT. It is likewise difficult to predict how or whether legislatures or regulatory agencies may implement changes to law and regulation affecting distributed ledger technology and its applications, including the Platforms or part thereof, and the OGT. Residents of certain jurisdictions may not be permitted to participate in the sale and purchase of cryptocurrencies or digital tokens such as OGT, and such participation may be illegal in such jurisdictions. Legislation prohibiting or regulating such token sales may be introduced in the jurisdiction of the purchasers of OGT.

New or revised legislation, regulations, administrative directives or guidelines issued by regulators, and regulatory actions could negatively impact on the Platforms and OGT in various ways. The Company may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction.

Regulators from the jurisdictions in which a purchaser of OGT resides may, after the sale and purchase of the OGT, conduct investigations and take regulatory action in respect of such sale and purchase, or prohibit the secondary sale and purchase of the OGT.

8. **Risks Arising from Taxation:** The tax characterisation of OGT is uncertain. You must seek your own tax advice in connection with purchasing OGT, which may result in adverse tax consequences to you, including withholding taxes, income taxes and tax reporting requirements.
9. **Risk of Insufficient Interest in the platform:** It is possible that the Platforms will not be used by a large number of individuals, companies and other entities. Such a lack of use or interest could negatively impact the extended use of the Platforms and therefore the potential utility of OGT.
10. **Risk of an Unfavorable Fluctuation of Ether and Other Currency Value:** The Company intends to use the proceeds from selling OGT to fund business operations and the maintenance and development of the Platforms. The proceeds of the OGT sale may be converted into fiat currencies (or other cryptographic currencies). If the value of other cryptographic or fiat currencies fluctuates unfavorably during or after the Sale Period, the Company may not be able to fund development or may not be able to develop or maintain the Platforms in the manner that it intended.
11. **Risk of Dissolution of the Company:** It is possible that, due to any number of reasons, including, but not limited to, an unfavorable fluctuation in the value of other cryptographic and fiat currencies, the failure of commercial relationships, or intellectual property ownership challenges, the Platforms may no longer be viable to operate and the Company may be liquidated.

12. **Risks Arising from Lack of Governance Rights:** Because OGT confer no governance rights of any kind with respect to the Platforms or the Company or its corporate affiliates, all decisions involving the Platforms or the Company will be made by the Company at its sole discretion, including, but not limited to, decisions to discontinue the Platforms, to create and sell more OGT, or to sell or liquidate the Company. These decisions could adversely affect the Platforms and the OGT you hold.
13. **Unanticipated Risks:** Cryptographic tokens such as OGT are a new and untested technology. In addition to the risks included in this Annexure 1, there are other risks associated with your purchase, holding and use of OGT, including those that the Company cannot anticipate. Such risks may further materialise as unanticipated variations or combinations of the risks discussed in this Annexure 1.
14. **Intellectual Property Claims:** Intellectual property rights claims may adversely affect the operation of the Platforms. Third parties may assert intellectual property claims relating to the holding and transfer of digital assets and their source code. Regardless of the merit of any intellectual property or other legal action, any threatened action that reduces confidence in the Platforms' long-term viability may adversely affect the value of the Company, the Platforms, or OGT. Additionally, a meritorious intellectual property claim could prevent you from accessing the Platforms.
15. **Nature of OGT :** As set out at the beginning of these Terms of Sale, and in clause 5, OGT are utility tokens to be used on a blockchain and grant the holder the right to access premium features on the Platforms, and to contribute more meaningfully to the content of the Platforms. OGT are not and are not intended to be "securities" as defined under Applicable laws, such as a share or debenture. Purchasers of OGT do not acquire any equity or security interest, in, or a debt owed by any corporate entity, and will not enjoy the rights normally associated with shares, debentures or other instruments normally classified as a security.
16. **Personnel risk:** The Platforms and OGT were developed by a team of core personnel and experts. There is a possibility that some members of the team may leave or cease to be part of the development of the Platforms and OGT.
